Since 1886 we have specialized in the development and growing of Sweet Pea Seed. No finer varieties or stocks are obtainable elsewhere. We can suggest suitable substitutes for varieties not found on this list.

Cuthbertson, Our own development and latest introduction. Extremely vigorous, long-stemmed, large wavy fragrant blossoms. Will flower 2 weeks after the Early Flowering Spencers and 10 days before the Late (or Summer) Flowering Spencers. Adapted for any part of the country, particularly successful where hot, weather conditions prevail. Also useful in greenhouses, for a spring crop. (A-6 ft.)
